Response to Applicant's Amendment

1. The amendment filed October 13, 2004, has been entered and made of record.

In response to the amendment, the rejections under 35 U.S.C. §§ 102(e), as well as the double patenting rejection, are withdrawn.

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance:

Claim 1 has been amended to include the limitations of previous claim 2. Claim 7 has been amended to include the limitations of previous claim 8. Claim 10 has been amended to include the limitations of previous claim 11. Claim 15 has been amended to include the limitation of previous claim 16. Claim 18 has been amended to include the limitations of claim 20. Claims 2, 8, 11, 16 and 20 were indicated in the previous office action as containing allowable subject matter. All other pending claims depend from claims 1, 7, 10, 15 and 18.

Specifically, claim 1 now requires comparing a position of the image of the object contained in the pseudo image and a reference position, and that the image processing parameter is changed so that the position of the image of the object corresponds to the reference position when the position of the image of the object does not correspond to the reference position. These features in combination with the other limitations of the claim are neither disclosed nor suggested by the prior art of record. Claims 10 and 18 recite analogous features. Claims 7 and 15 recite similar features, except that the image is in a real picked-up image rather than a pseudo image.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
